

LOADSHEDDING BACK UP PLAN

Dear Guest

Due to **ESKOM** "SA local power utility service provider" instituting rolling black outs countrywide, loadshedding affects everyone in SA, However, we are extremely excited to share with you that we have installed back-up power systems including solar at both our properties in Franschoek, Auberge Daniella and 10Villefranche.

You can enjoy a lovely stay at **Auberge Daniella** or **10Villefranche** without having to fear of being without lights day or night. Our security and alarm systems will be active 24hours. The backup power will provide you with uninterrupted Wi-Fi connection and Television are also available for your convenience.

We will keep you updated on loadshedding schedules either by sending updates on WhatsApp or please feel free to download the App "Eskomsepush" for daily updates, **Add Area - Franschoek (8)**

We want to ensure a comfortable and memorable stay for all our guests at Auberge Daniella and 10Villefranche.

We look forward to welcoming you soon to our beautiful properties in Franschoek.
